

AQUABLAST® PLUS – FRV 1000

HAMMELMANN®

The manual surface cleaner allows numerous applications, waste water can directly be vacuumed away. A rotating nozzle bar (4-nozzle) provides optimal cleaning performance.

AQUABLAST® PLUS – FRV 1000

System with two steerable castors and two fixed castors for easy handling

5-fold direct vacuum system

Benefits and applications

- The highly effective direct vacuum systems allows the FRV 1000 to be used in operating facilities without needing to shut down production.
- Ideal for cleaning and vacuuming of petrol, oil and grease.
- Ensures effective removal and suction of paint, mastics, cement slurry, separating substances, fine mortar layers, and more.
- Brightening and vacuuming of hot plastic.
